1. With respect to your recommendation for the establishment of a special advanced course on Communism, we would like to confirm our previous statements. 2. To implement your recommendation, TRD has, in its recent revision of its T/O, established an additional position for a Chief Instructor, International Communism Course. We are hoping that this position will be approved.

3. However, so far we have not succeeded in locating or recruiting a qualified and experienced person who could plan, prepare, coordinate, and direct such instruction. Any help which Staff C, OSO, may be able to render us in this connection will be appreciated. In the meantime, it has to be understood that such a course cannot be prepared and conducted without the full time efforts of a qualified and experienced officer.
